Date: 02 February 2024

Workshop Report: Senses Electronics Pvt. Ltd. Workshop on February 1, 2024

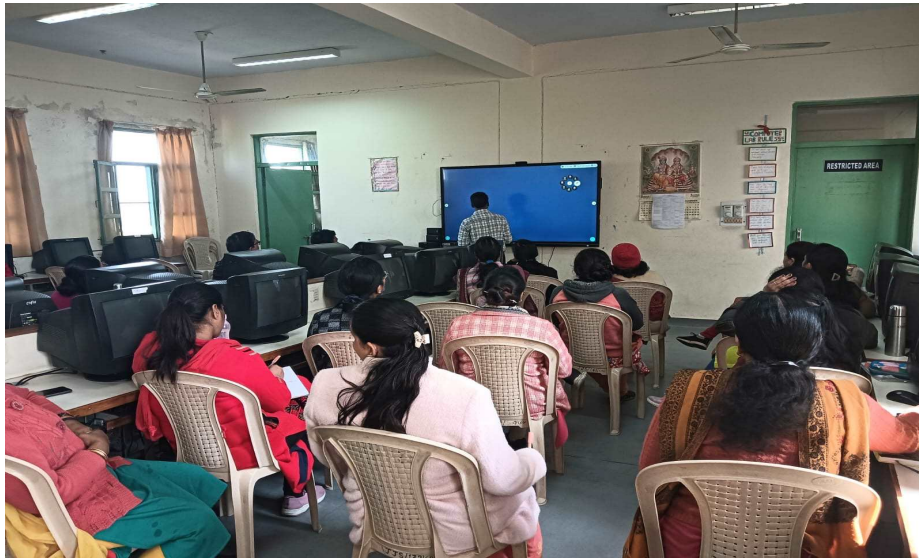

The workshop aimed to provide hands-on experience and training to teachers on the utilization of Senses IIP. The session was designed to be interactive, allowing all the 29 teachers to explore and engage with the tools relevant to their respective subjects.

Senses Electronics Pvt. Ltd. organized an insightful workshop on February 1, 2024, at Jay Jyoti School, Guna. The workshop was facilitated by Mr. Hrushikesh Bhavre, a seasoned expert in the field. The focus of the workshop was to familiarize teachers with the latest technology tools developed by Senses Electronics for educational purposes.

Agenda:

1. Introduction and Overview

- Mr. Hrushikesh Bhavre introduced the workshop, highlighting the importance of integrating technology in the educational process.
- Overview of Senses IIP and their applications in the classroom.

2. Hands-on Session:

- The workshop featured a hands-on experience where different subject teachers used the interactive panel one by one.
- Teachers explored the functionalities of the technology tools relevant to their subjects, providing them with a firsthand experience.

3. Interactive Session:

- A key feature of the workshop was its interactive nature. Teachers actively participated, sharing their insights and experiences with the technology.

- Mr. Bhavre encouraged collaborative learning, fostering an environment conducive to exchanging ideas and best practices.

4. Doubt Clearing Session:

- A dedicated segment was allocated for teachers to raise queries and seek clarification on any aspects of the technology tools.

- Mr. Bhavre addressed each query, ensuring that teachers left the workshop with a clear understanding of the tools.

This workshop has undoubtedly empowered teachers with the necessary tools to enhance the educational process through the incorporation of innovative technologies.
